Water treatment - smart control - modern & connected swimming pool

KLEREO OLYMPIC

The solution for an automated pool!

You want to equip a public pool subjected to high performance requirement? Free chlorine regulation is the solution. Injection of liquid chlorine is regulated by an amperometric sensor measuring the free chlorine level of the pool.

The Kleréo Olympic Automation Kit includes:

- 1 electronic central unit
- 2 dosing pumps 1.5 l/h
- 1 water temperature sensor
- 1 pH sensor & 1 ORP sensor
- 1 flow switch sensor
- 1 amperometric sensor
- 1 analysis chamber with integrated flow detection
- 1 Kleréo Connect – Internet Connection Kit
- 2 empty chemicals feeder detection for pH and liquid Chlorine

Kleréo Olympic is in charge of everything:

- Automatic water treatment
- Regulation of filtration duty cycle
- Measurement of pool parameters

Easy and preventive maintenance

- Simple and intuitive control
- A reliable and secure K-link communication protocol
- Compatible with your smartphone, tablet or PC
