

KLEREO SPA

Klereo is in charge
OF YOUR SPA

Water treatment - smart control - modern & connected swimming pool

KLereo SPA

Automation to simplify maintenance and to get a good quality of water.

Klereo offer a product well adapted to spas using 0.4 l/h dosing pumps

- pH regulation and liquid chlorine disinfection adapted to small volume of water to prevent overdosing
- Regulation of the disinfectant by ORP sensor for private SPA or via an amperometric sensor for public SPA, which continuously measures the free chlorine level
- An internet connection to consult and control the parameters of the SPA (pH, chlorine, temperature...)
- Permanent diagnostic and history of events in case of maintenance

Automation kit Kompact M5 SPA includes:

- 1 electronic central unit
- 2 dosing pumps 0.4l/h
- 1 water temperature sensor
- 1 pH sensor
- 1 flow switch sensor
- 1 ORP sensor

Automation kit Kompact M9 SPA includes:

- 1 electronic central unit
- 2 chemical metering pumps 0.4l/h
- 1 water temperature sensor
- 1 pH sensor & 1 ORP sensor
- 1 flow switch sensor
- 1 amperometric sensor
- 1 analysis chamber with integrated flow detection
